Lord Carlingford had declined the appointment of Ambassador at Constantinople, to which Mr Goschen had to be sent as a stop-gap during the absence on leave of Sir Austin Layard. of late been pretty hardly subjected, and make the whole work of the Suprema Court run more smoothly and satisfactorily.

THE complete results of the tria gular shooling match have now been telegraphed and are as follows: -

Kobé, total score, 642, highest 85. Shanghai, 630, highest 88.

Hongkong, 400, highest 81. It will thus be seen that Kobe takes the place of honour with 12 points over Shanghal and 147 over Hongkong, while the cup goes to the successful scorer of 88 at Shanghai. The weather here was fatal to good shooting, but we have no record yet as to how matters stood in this way with our opponents.

It is a pity that things could not have been better arranged than they have been for the Queen's Birthday reception at Government House. At the eleventh hour the community are informed that there will be reception after the State dinner at Government House, and that "the various Consuls and Foreign Officers, Officers of H. M. Navy and Army and Civil Service, and the ladies and gentlemen of the Colony" will be received by Sir John and Lady Hennessy at I past nine o'clock this evening. Apart from other considerations, we fancy that a twelve-hours' general invitation is scarcely adequate for such an occasion; and it sayours, we think, somewhat of presumption on the part of our morning official organ to bunting. draw the inference that the large number of residents who will be unable to be present do not belong to the "loyal communi- at the present Criminal Sessions it may Owing to the unfortunate circumstances of the case, there will probably be as much loyalty found outside of the gubernatorial palace this evening as inside of it.

OUR morning contemporary states, evidently upon the authority of the "Press Commissioner," that the Band of the 27th Regiment will play at Government House this evening, instead of Head-Quarter House; and that the dinner intended to be given by Major-General Donovan has been abandoned. Now, although we think it is a pity that the Band was ever refused (if that be true), it is somewhat remarkable that all this should be so elaborately recorded with so evident a bias in prominent type. Whatever may be the reason, there is an apparent intention demonstrate that the Major-General Commanding is all wrong and that the Governor of the Colony is right from beginning to end. The officers of the Regiment have, we understand, expressed their opinion that their Band should go to Government House, on the ground that certain members of ruling dynasties in Europe were to present there. But it will be wiser, we fancy, to reserve an opinion upon the whole question of disputed authority until the entire correspondence is considered and pronounced upon by the proper authorities at Home.

good," is an old saying and a true one. If the appointment of Captain Francis, of the Hongkong Volunteers, has any good effect at all, it may be regarded as a tardy acknowledgement of the existence of that corps. It is true, as we stated some time ago. that little enough has been done, by way of encouragement, for the H.K.V., and that they have not been recognised officially by the Home Authorities. The appointment of the Captain of the Corps, however, as an Extra A. D. C. to the Governor, although perhaps an involuntary compliment -being the only way out of the dilemma into which H. E. the Governor has drawn or found himself-may be accepted as a crumb of comfort by the poor Volunteers. Out of confusion it may be that order may arise, so far as the Corps is concerned, by the appointment of Captain Francis. In other respects there is nothing by satisfactory o'c'ook on Monday evenlog, the 24th inst. to be said beyond the fact that Captain Francis will doubtless be of service to His Francis, Captain H. Russia, it is stated, is prepared to orde Kuldia, not possessing any claim to retain it as a conquest, only stipulating to be indemnified for her costs of administration. THE 24TH MAY IN HONGKONG. To the Editor of the "CHIRA MAIL."

May 24, 1880. Str. -The Queen's Birthday has been celebrated in Hongkong in a style not befitting the occasion. The Royal Standard has waved this day over many a hard-won vantage point: from the Citadel of Quebec, rom the Port of Gibraltar, from the Bala Hispar of Cabul, and in one and all the tradition of the day has been observed with all the pomp and circumstance that a military display can sfford. No point has been omitted which could add to the splendour of the scene. The hour chosen for the parade has been one, which, while conceding all that was possible for the comfort of the troops, has nevertheless kept prominently in view the moral of the event -which is that all peoples, inhabitants of Her Majesty's dominions, should observe and feel the electric current which bullds together the hearts of Englishmen. Europe, Asia, Africa, and America. Australia and New Zealand, in all the outpulse has beat with one common throb.

Here in Hongkong what have we seen? The Military display—save the mark—has been slurred over with all the secrecy which in days gone by attended the flogging of a private soldier. modified in certain details. Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Mantiers and Cus-toms, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin,

French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department. Notes and Roplies are classified toge-

ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though saking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August. 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Postry in this volume is alone worth the price of the Review. Address China Review, Hongkong.—Northern

Ohristian Advocats (U.S.) Trubner's Oriental Record contains the following notice of the China Review :-- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable ; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uhinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was

It is the first Chinese Newspaper ever sessed under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Uhinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of
